

Creating Employment Opportunities through Culinary Training and Education

✦ WORLD CENTRAL KITCHEN CULINARY SCHOOL ✦

A staggering 40.6% of all Haitians are unemployed. Recognizing this issue, World Central Kitchen has created a Culinary School that provides a skilled workforce for Haiti's growing tourism industry and increases the earnings potential of low income graduates.

At the World Central Kitchen Culinary School, students will be empowered with new knowledge of:

- Professional culinary skills
- Meal production
- Front of house service
- Kitchen hygiene
- Food safety and sanitation
- Job search and career skills

This new skill set will prepare trainees for potential careers in the hotel, tourism and food industries—offering them an entirely new path in life.
